29LEAPS

It's a **leap year!** That means we have 29 days instead of 28 this February. For some, an extra day is great! ...but for those who are sick, homeless, lonely or hurting... an extra day may not be something to celebrate.

29Leaps is about celebrating life and happiness for everyone. Let's show people that an extra day is something for EVERY-ONE to celebrate. Through the good and the bad, it always helps to know that someone cares about you. That's why we want to take the opportunity to use the number 29 as a benchmark for spreading the good. www.29Leaps.com
