*Help Today for a Better Tomorrow*

### **Wishlist for In-Kind Items - November/December 2021**

You can make a difference in the lives of children and their families and build a caring community where everyone can thrive!

Strengthening families is at the core of what we do. We know that supporting families is the best thing possible for children, youth, and families. It's also a good thing for our community. Families that are resilient, that can bounce back in the face of hardship or adversity, are families that can heal better and grow stronger **together**.

Our wish list, developed with input from frontline workers and clients, highlights the items that help families respond to the day-to-day needs of the children, youth and families we serve.
