

LAUNCH KITS

A Place of Their Own

This year, almost 100 youth in Waterloo Region will be leaving care and settling into a life after child welfare. These youth will be starting out on their own, many without a network of support.

Family and Children's Services Foundation invites you to be a part of their support network and help make their transition as smooth as possible!

They will need items to make their new space a home. We have created several themed "Launch Kits". Each kit has a list of items necessary for creating a place to live independently.

We kindly ask that kits contain new items and are completed fully before donating. We currently have a need for, and are accepting, all kits listed below.

Please book a time with Sydney to drop-off the completed kits at the Family Centre, as reception cannot accept donations.

If you would like to support the program but are not able to complete a kit, please consider making a cash donation to "A Place of Their Own" Launch Kit program, by [Clicking Here](#).
